Wildlife Sections

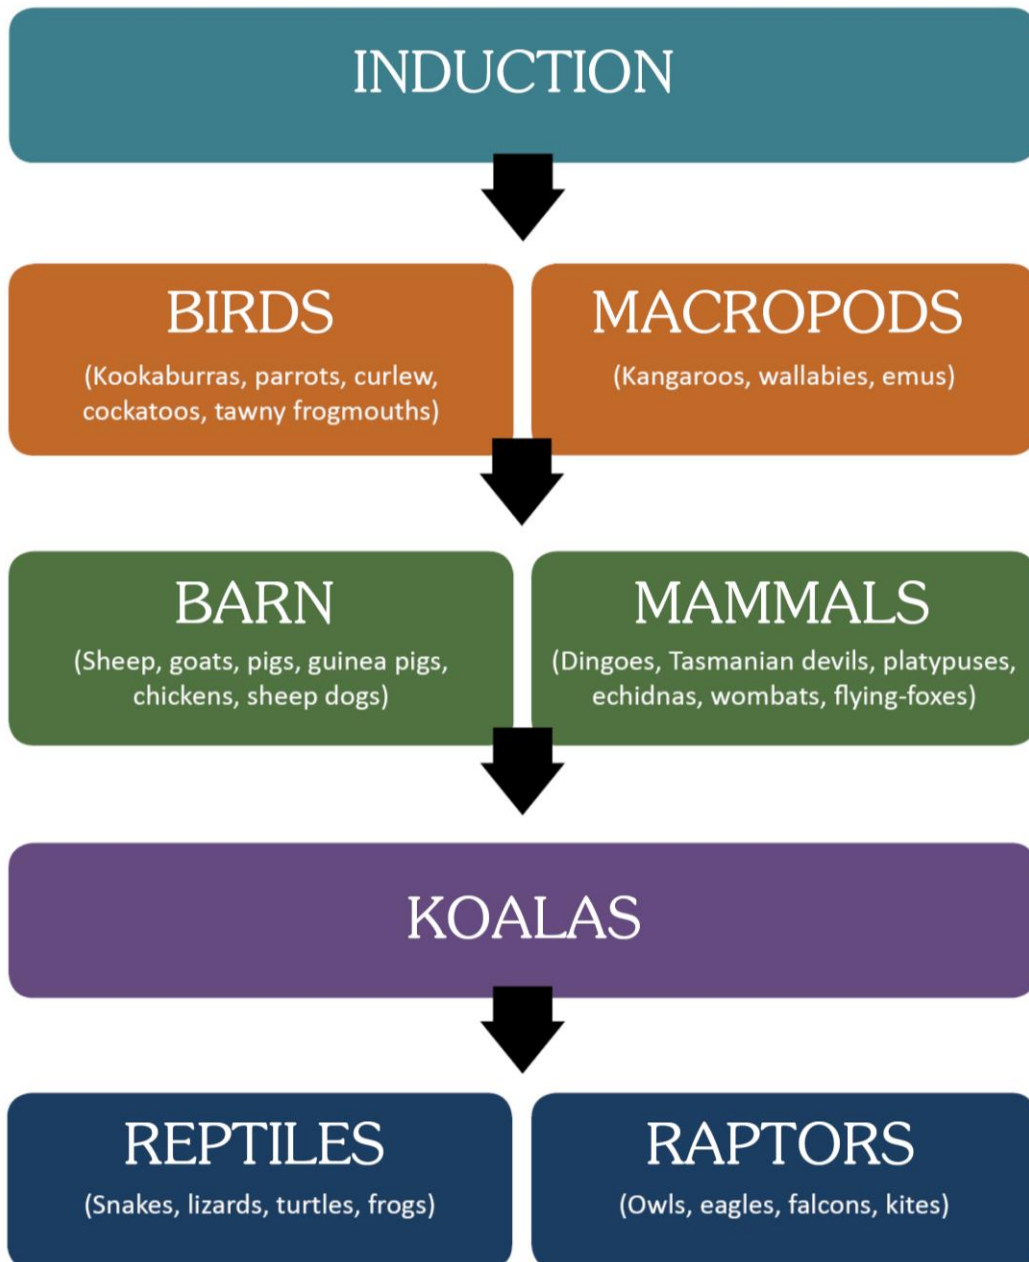

At Lone Pine there are various wildlife sections with strict daily schedules. Wildlife Volunteers are responsible for being in the correct area at the correct time.

Wildlife Volunteers will start the program by assisting with the birds and macropods sections only, then the barn and mammals sections, next followed by the koalas section then lastly, the reptiles and raptors sections. Advancement to each new section will be based on keeper assessments.

A mandatory induction session must be completed prior to starting the Wildlife Volunteer Program at Lone Pine Koala Sanctuary. These sessions are run once per month (on a Sunday at 2:30pm). *Bookings for these sessions are essential.*

Please note: All volunteers are subject to a probation period of four days. Supervising wildlife keepers and volunteer coordinator will assess and determine whether the volunteer is successful to continue on with the volunteer program.
